Marketing upgrades are available to increase the amount of information on your company and to move you far-forward in the search results.

Online – All listings provide buyers the ability to forward the information they found or bookmark for future reference. Full contact information is also included - company name, address, phone, fax, e-mail and web site all linked to the categories of products they work with.

We hope our latest offering proves beneficial to you and your company throughout 2012.
